I ABOUT US

Waverly Technology LLC excels in delivering top-tier IT services, specializing in Cybersecurity, Project Management, and Information Technology. Our strong emphasis on leadership development for veterans and civilians complements our technical expertise, making us a trusted partner in the industry. Our company's vision, values, and extensive government sector experience highlight our commitment to excellence and social responsibility.

I OUR VISION

Make every effort to conjoin experts in Information Technology and Cyber Security, with trend setting DOD and IC buyers of goods and services

I OUR MISSION

To perfectly align IT and Cyber Security talent with impactful DOD and IC clientele, through authentic relationship building, interpersonal development, and direct engagement.

I CORE CAPABILITIES

- ⊗ Administrative Management
- ⊗ Project Management
- ⊗ Change Management
- ⊗ AI/Machine Learning
- ⊗ Strategic Planning
- ⊗ Systems Engineering
- ⊗ Zero Trust
- ⊗ Cloud-Based Solutions
- ⊗ IT Systems Management
- ⊗ SAFe Agile Framework

I CORE VALUES

An IT company should strive to continuously innovate and improve its products and services, as well as its internal processes and systems. Customers are the lifeblood of any business, and an IT company should prioritize their needs and satisfaction above all else. Trust is crucial in any business, and an IT company should be transparent and honest in all its dealings, both with customers and with employees. IT projects often require collaboration between different teams and departments, and an IT company should foster a culture of teamwork and cooperation.

I AFFILIATE AND ASSOCIATION

DIFFERENTIATORS

Veteran and Women-Owned Leadership:

Led by a seasoned military veteran and a female entrepreneur, providing a unique perspective and commitment to diversity and inclusion.

Extensive Government Experience

Over 25 years of government experience, ensuring a deep understanding of federal processes, regulations, and standards.

Comprehensive Certification Portfolio

Holding key certifications such as ITIL v4 Foundations, CompTIA Security+ (SY0-601), SCRUM Master, and Project Management Professional (PMP), demonstrating a commitment to industry standards and best practices.

Focus on Transitioning Veterans

Dedicated to supporting Veterans transitioning to civilian careers, with tailored programs that bridge the gap between military and civilian employment.

OCONUS Military Installation Reach

Experience and capability to deliver services to overseas military installations, ensuring a wide geographical service range.

Approach to IT Support and Program Management

Combining technical expertise with a strong focus on leadership and personal development, providing a well-rounded service offering.

Commitment to Exceeding Customer Expectations

A proven track record of surpassing customer expectations through meticulous attention to detail and a customer-centric approach.

PAST PERFORMANCE

Senior System Engineer

Collaborated with the Configuration Management team to draft technical documentation for hardware/software development and integration. Using Jira and SAFe Agile practices, I enhanced integration strategies and maintained communication to address impediments. I supported the Acquisition team in locating unaccounted software and hardware, reviewed IOC documentation, and created a Confluence page for updates. Active in daily stand-ups, I provided updates on Jira tickets and potential issues. Additionally, I contributed to system engineering documentation, aiding in risk mitigation planning.

Assistant Program Lead

As Assistant Program Lead, I oversaw multiple departments, focusing on business program and project management support. Proficient in System Engineering principles, I managed network engineering, data flow, configuration, and systems within various security boundaries. As chair of the Engineering Review Board, I prioritized, planned, and approved projects aligned with business objectives. My expertise in managing infrastructure upgrades and coordinating system integration emphasized my commitment to achieving program goals through effective project management.
